January 2011

Dear friends,

This coming summer, the St. George Community Sailing Foundation will celebrate its tenth birthday. Since its simple start on the Klomans' dock in 2001, the program has introduced several hundred youngsters to the skills necessary to handle a small boat. Thanks to our successful partnership with Blueberry Cove Camp, we have a permanent base ashore. Through sailing, our children now have the opportunity to get to know the wind, the tides, and the water that are so important to us on the St. George Peninsula.

Our sailors include year-round residents, children whose families have summer homes in the area, grandchildren who come to stay with local grandparents, and even visitors from overseas. Now some of our sailors are also campers at Blueberry Cove. Thanks to some thirteen scholarships offered by generous donors and the St. George Recreation Committee, we are able to include every child who wants to sail.

The SGCSF has become a vital and vibrant part of our community. However, tuitions alone are not enough to cover the costs of the program. Please consider helping us build on our success with a donation for 2011.

Yours truly,
Steve Lindsay
President
